

The Rotary Foundation District 9930 Multi Donor Form

Use this form to record a club contribution and contributions from individual club members. Credit is given to the individual donor and to the donor's Rotary Club. Record the club's contributions using the first two lines and list all individual members' contributions on the following lines. Enter the amount in the column that indicates the fund to which the contribution is to be credited.

NOTE: Under NZ tax regulations, individual donors can be issued with a receipt for tax purposes only when the contribution is made from the donor's personal funds and not from an auction, raffle, or purchase of donated goods or services. Further, contributions which come from a collective effort of the club members, and apportioned across the club membership, may not be reported as individual contributions for tax credit. However, the club may apportion collective funds as individual giving for Rotary Foundation credit.

IRD regulations apply to both the Club and District. When individual contributions qualify for a tax receipt (see above) only one receipt may be issued. If issued by the Club, the District will not issue a second receipt.

Has the Club issued a receipt for IRD Charitable Donation Rebate purposes to individuals listed below?

☐ YES ☐ NO

I hereby declare that contributions listed from individual Rotarians were: (tick which applies)

☐ **personally given by the individual** ☐ **allocated from collective fundraising**
